

VACCINATIONS

Under 16 weeks

FVRCP: Every 3 weeks starting at 6 weeks of age. Last dose after 16 weeks of age, minimum of three doses.

FelV*: Two doses 3 weeks apart after 8 weeks of age.

First vaccines older than 16 weeks

FVRCP: Two doses 3 weeks apart if starting after 16 weeks of age.

FelV*: Two doses 3 weeks apart after 8 weeks of age.

Rabies in Utah: Single dose at age 4 months. (varies by state)

Booster series

FVRCP: One dose 1 year after initial series, then every 3 years.

FelV*: One dose 1 year after initial series, then annually for at risk cats.

Rabies in Utah: One dose 1 year after initial series, then every 3 years with a 3 year labeled vaccine.

Responsibility is now yours!

Celestial Zoo can help finish a series if you contact us to coordinate. But the rest is up to you after adoption and is part of keeping your cat healthy. Contact your veterinarian or a local vaccination clinic for more information.
